AEROBALL: KNOWLEDGE OF THE GAME
AEROBALL is a fast-paced, high-energy game that is played inside a large, enclosed cage. The game is designed to be played by two teams of four players each. The objective of the game is to score points by hitting the ball into the opponent's goal. The game is played on a court that is divided into two halves by a net. The ball is thrown into the air and players use their hands to catch it and throw it back into the air. The game is played for a set amount of time, typically 10-15 minutes. The team with the most points at the end of the game wins.
