Growing together as children of God

At Holy Trinity C of E Primary School:

- we want our pupils to **grow** in confidence, independence, resilience and knowledge, so that all achieve their full potential and develop a life-long love of learning and of the world around us.
- we work **together** with families, community and church to model positive relationships, supporting each other and acknowledging that we are stronger when we work together.
- we are growing together as **children of God**, strengthening our faith, secure in the knowledge we are unique, loved and cherished

Biblical Basis for Policy

Matthew 7:12

So in everything, do to others what you would have them do to you, for this sums up the Law and the Prophets.

Accessibility Policy

I. Aims

Holy Trinity C of E Primary is an inclusive school guided by the Christian ethos that is expressed in the school's 'Growing Together as Children of God' mission statement. These aims promote inclusive education in its widest sense in all areas of school life.

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the **curriculum**
- Improve the **physical environment** of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible **information** to disabled pupils

The school supports any available partnerships to develop and implement the plan.

2. Legislation and Guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Curriculum

Our Teaching and Learning Policy sets out key curriculum priorities. We seek to ensure that teachers are skilled in differentiating the curriculum for learners with a wide range of needs, as outlined in our Special Educational Needs and Disabilities Policy.

4. Physical Environment

A project to significantly expand the school building was completed in September 2010. When designing the new building, the school's architects Curl La Tourelle completed an extensive review of accessibility and the new extensions were designed to comply with Part M of the Building Regulations and the DDA regulations.

The ground floor of the school has no steps, meaning that pupils, staff, parents and visitors can enter the building from street level. The school has a platform lift between the ground and first floor levels, providing wheelchair accessibility to all areas except the maintenance and mezzanine floor which are not used by pupils and only used by a small number of staff. This lift is serviced on a regular basis.

Some of the internal doors would be difficult to open for someone in a wheelchair or using other mobility aids due to their weight. The doors changed due to fire regulations, but we proactively encourage a school culture of respect and mutual assistance. Staff and pupils regularly hold the door open for others whether they are disabled or not.

We are therefore confident that the design of the school building itself maximises accessibility for disabled pupils, staff and visitors. We ensure that the school environment is free from temporary barriers to accessibility in the following ways:

- Daily inspection of the site by the Premises Manager who will remove obstructions, sweep leaves, ensure the floor is dry etc.

- Half termly inspection of the site by the Health and Safety Governor who will identify short term and ongoing issues for rectification
- Daily informal inspection of the site by members of the Senior Leadership Team who will remove lost property etc.
- Packages, scooters, buggies etc. are parked at the edge of the Welcome Area so as not to cause an obstruction
- Area around the lift kept clear at all times
- Staff reminders to keep corridors free from coats and bags through the weekly briefing meetings

In addition to ensuring that our school site and culture maximise accessibility in general terms, we conduct specific risk assessments for pupils or staff members who need specific support on a permanent or temporary basis, as and when those individuals join our school and/ or when their circumstances change. We develop action plans which are specific to those individuals needing help, making all reasonably practicable modifications to the school site and/ or working practices, in consultation with parents, staff and outside advisors as applicable. This will include provision for pupils or staff members with 'hidden' disabilities or sensory needs.

5. Information Provision

Our school uses a range of communication methods to ensure information is accessible for all pupils including:

- Internal signage in a standard font, using simple language
- Pictures used as well as words wherever possible e.g. on labels for stationery drawers in classrooms
- Large print resources prepared for children who need these

Our school uses a range of communication methods to ensure information is accessible for all staff including:

- Key messages for staff are communicated verbally at the Monday briefing, supported by a short written summary
- Expectations of staff e.g. the details of our Behaviour Policy are communicated verbally as well as in a written summary. Senior Leaders regularly model example scenarios in short training sessions for Lunchtime Supervisors.

ParentMail is the main communications channel for use with parents. Messages follow a standard format and are written in clear English. Every message includes an email address and phone number so that parents can contact the school if they have questions. The website follows web content accessibility guidelines. When the school is made aware of families who find written communications difficult, they proactively phone these families when important messages need to be delivered.

6. Monitoring Arrangements

This document will be reviewed every 3 years, but may be reviewed and updated more frequently if necessary.

It will be approved by the Business Committee of the Governing Body.

7. Links with Other Policies

Our Accessibility Policy and Plan are linked to the following policies and documents:

- Admissions Policy
